To Whom It May Concern:

I had the opportunity to work with Diversified Construction of Georgia, Inc. on the Recorders Court Renovation project located @ 3630 Camp Circle, Decatur, GA. This project included adding two (2) additional courtrooms, enhance and renovate two existing courtrooms, and renovate all other areas of the Courts administrative support facility in order to enhance public access for payment, provide a prisoner detention area, and upgrade all administrative operations areas.

Within the 7 months of the project, Diversified Construction of Georgia, Inc. has shown diligence and dedication to complete the work on time, which greatly benefited other pending projects I am handling.

Even though there were obstacles along the way because of some unforeseen conditions before their mobilization date and during the course of the renovation work, Diversified Construction of Georgia, Inc. was able to maintain the efficiency of the work and managed to work around the problems they were faced with that was beyond their control. Diversified Construction of Georgia's attention to the specifics of the work as well as proper scheduling has been very remarkable, which resulted in a job well done! I would not hesitate to refer Diversified Construction of Georgia, Inc. to other organizations that are also in need of quality service from a contractor.

I give you my highest recommendation with the knowledge that Diversified Construction of Georgia, Inc. will serve all other organizations with devotion and skill.

Sincerely,

Cristina Fannin
