Re: Diversified Construction of Georgia, Inc.

To Whom It May Concern:

Diversified Construction of Georgia, Inc. submitted the low bid and was awarded the contract on a four classroom addition at Garden Lakes Elementary school. Diversified has worked well the teachers, students and staff at Garden Lakes, even when construction had to be delayed due to CRCT testing.

Floyd County is satisfied with the construction process. Construction will be completed this summer and within the submitted time line.

If I may provide further information, please feel free to contact me.

Respectfully,

Sam Sprewell  
Chief of Operations
