To: Whom It May Concern

Gil Montoya Architect found Diversified Construction of Georgia's staff to be very professional, courteous, accessible, practical and efficient. We continue to have a very positive relationship with the firm and would highly recommend them to any entity considering a renovation or build-out project. David Lubin's expertise and knowledge of the requirement relative to our renovation projects proved to be invaluable during the design and construction stages of the various retail projects we have done together. It is without hesitation that I strongly recommend that you consider engaging Diversified Construction of Georgia, Inc. to assist in the build-out of your facility.

Gil Montoya, Architect
